

# Energy savings for the innovators.

*PSE&G helps pharmaceutical facilities improve efficiency.*

PHARMACEUTICALS

Pharmaceutical facilities rely on consistent energy to maintain precise environments and specialized equipment. PSE&G offers valuable incentives like rebates and interest-free repayment options to help you improve performance and efficiency across critical operations.

Upgrade different facets of *your facility*:

## Refrigeration and Cooling

- ✓ Upgrade to newer high-efficiency refrigeration equipment to maintain safe temperatures for pharmaceuticals and other sensitive materials.

## LED Lighting

- ✓ Replace lower-efficiency lighting fixtures with new energy-efficient LED fixtures and install lighting sensors that automatically adjust as people move through laboratory or production areas.

## Heating and Cooling Systems

- ✓ Maintain HVAC equipment by clearing ducts and replacing filters, or upgrade to newer systems that help ensure stable, precise environmental conditions across your facility.

Energy efficiency measures from PSE&G can help make your projects cost-effective and hassle-free. If you need to reduce operating costs or you're planning a major renovation, PSE&G is the trusted expert for all your energy upgrades.
